PHILOSOPHY

Ilfari®, breathtakingly beautiful lighting that's both whimsical and wonderfully eccentric. Founded in Holland in 2001. Pure Dutch design. Ilfari is modern, with a classical touch as well as classic, with a modern touch.

Inspired by dance music and creations of world's top designers in fashion. The music, which flows through the offbeat elegance of the light creations, is bringing delicacy and a sense of movement. All this without forgetting that a room at night has many identities and multiple functions and lighting must serve all of them. We channel the music into handcraft lighting that reflects what we hear.

This is the philosophy that has underpinned our collections ever since Ilfari is founded. The result is cosmopolitan, luxury lighting that is unique with a highly progressive look, eclectic, almost artistic on light with a great beauty and simplicity.

Ilfari light creations are entirely handmade, manufactured in Holland and Germany and using the highest quality European glass and crystals from Swarovski®, with razor sharp attention to detail. The aim is to give both modern and classic interiors an individual, almost revolutionary look, with designs that play with light just as they play with your imagination.

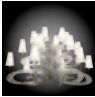

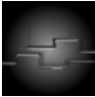

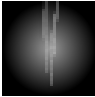

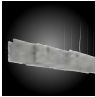

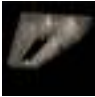

In this latest general catalogue, you'll find inspirational lighting ideas that will totally transform your interior design with our fascinating collection and will give you a first impression. Always find the latest news and updates on our website ilfari.com.

Be inspired, extraordinary lighting for fascinating people.

Kind regards,

Coen Munsters
Ilfari founder and designer
